WE WORKED INTENSELY, WE WILL CONTINUE TO WORK SOLIDLY

Three years passed from the last elections and on the 11th March the Gharb residents will have another opportunity to choose the Local Council who will represent them for the next three years. I together with my colleagues can look back at the past three years with great satisfaction since undoubtedly we made of our locality a better locality thanks to the projects and initiatives undertaken throughout this period.

We were the first Council in Malta and Gozo to acquire funding from the Structural Funds for the Wied il-Mielah Project – a project costing LM85757 73% of which is being funded from ERDF. The importance of Education for our children. The Council was committed in improving educational services with the enhancement of library services and through assistance to the Għarb Primary School. A wide selection of courses were also organized.

Għarb Health Clinic There was an improvement and extension in the Government Clinic with the newly opened Nicolai Nappa Centre offering its services to the whole Gozitan community from this clinic. Proud with our culture The Council was continuously occupied with cultural initiatives in order to create a well blended calendar of events. During these three years we saw the birth of the Inforata with ever increasing popularity and which will also be listed in the Malta Book of Records. Other popular events consisted of Għarb Day and Carnival activities.

Strengthening our relations with international communities. The Council was committed to maintain the twinning with Gerano and established new contacts. We played an important role in the exchanges held between Gozitan and Italian businessmen.

Support to all local organisations. We believe in all local organizations without distinction and I always assisted them both personally and also through the Council in their efforts because I believe they can give a distinct personality to our locality.

We look towards the future with optimism: We continue achieving what we undertook. I assure that under my administration the Council will continue working solidly to:-

- *Upgrade our roads and pavements*
- *Give our assistance to our school to ensure the best educational system for our children and increase the variety of courses we offer*
- *Support youths, especially so that they can acquire a dwelling within their locality.*

Other projects that we have to emphasize on are: roads amongst which Saint Peter Street and Trux Street, creation of a recreational area at Thomas Cassar Street, restoration projects and protection of the environment: completion of the Wied il-Mielah project and extension of such works to other valleys. Coordinate with the responsible authorities so that the drainage which to date falls at Wied il-Mielah be transferred to Xewkija. This project entails also the resurfacing and embellishment of the streets in the effected route from Wied il-Mielah to Church Street. A new Council will be committed to create a Civic Centre which includes the Council Office and gathers the various services offered at Gharb.

The community chooses its representatives, the choice is individualized but effects the works for you, your family and the whole community. I wish to thank my colleagues - Deputy Mayor and Councillors for their cooperation as well as all residents for their support and participation in the Council's initiatives and for their encouragement. I take this opportunity to thank you for the opportunity and trust you gave me during these years so I could be of service to you, your family and the whole village. I believe that together with the Councillors we worked intensely to improve our locality.
